

## How to use the app

With EasyPark app you can pay, start, prolong and stop parking time directly from your mobile phone.

### How to get started

Download the app from App Store or Google Play store. Open the app and register your mobile phone number. Follow the registration flow by adding a payment method and register plate number.

#### Start parking

- Use GPS or insert area code.
- Press "P" button
- Set the parking time by spinning the wheel
- Press "Start"
- Choose vehicle or add new
- Parking has started.

#### Prolong parking time

- Prolong parking time by spinning the wheel more
- Press "Confirm parking time" .

#### Stop parking

If you want to stop the parking time before the time set:

- Press "Stop" button
- Parking ends and you get message "Parking has ended" to the screen.

No smart phone? Park by calling to 0600 415 500 (0.16 € / call + mpm)

#### Parking permit

Buy 30 days permit from the app. Insert area code 550, choose long term parking and the permit period. Permit costs 30€ + EasyPark's service fee, according to the package.
